Gelato on My Mind

Beyond ElectroChrome application instructions

To get the Chrome Look:

- 1 Prep Nails as you would before applying a gel polish base coat.
- 2 Apply your favorite Geluv Gel Polish Base Coat and cure for time indicated.
- 3 Apply Black Geluv Gel polish. Cure for 10 seconds. Repeat.
- 4 Apply Geluv No Cleanse Top Coat and cure for 30 seconds.

- 5 Select your Chrome Chic Effect. Using a sponge eyeshadow applicator, pick up the powder and rub into cured top coat. (use as little powder as possible)

NOTE: For Holographic & Duo color effects, DO NOT use the RUB technique for the first layer of pigment. Instead gently tap the powder into place. Once the first layer is in place, continue by rubbing the effect into place. This will create a deeper, holographic look.

- 6 Brush away any excess material. Pay close attention to the cuticle area. Avoid picking up loose pigment and dragging it into the finishing coat.
- 7 Finish with Geluv No Cleanse Top Coat, cure for 30 seconds.
- 8 Enjoy being FABULOUSLY Chrome Chic!
