

# BEYOND® couleurdip instructions

## DIPPING POWDER

File and shape nail bed evenly using our ceramic bit

Apply non-acid primer or bond-aid. Do not use primer with acid.

Apply base coat evenly. Make sure NOT to touch the cuticle.

Dip finger (entire nail bed) into colored powder. Repeat steps 3-4 two to three times to achieve a perfect shade

Apply activator evenly. Make sure the activator covers all surfaces of the nail bed.

File and shape nail to perfection.

Buff nail.

Using Cotton ball saturated with alcohol and Clean nail.

Apply thin coat of activator.

Apply first coat of top coat, carefully not to brush over each other. Apply second coat of topcoat making sure to cover the nail bed evenly
