4+ Point Hand & Foot Massage Tool

Helps your hands to do more, while saving your hands from pressure. Extremely helpful in applying precise pressure to soft tissue trigger points. The perfect massage tool to massage deep tissue. The soft shape & smooth feel & its unique, ergonomic design provide a very effective massage without the need for massage oil.

Thai Hand & Foot Massage Tool

Provides a most pleasant and relaxing hand & foot massage. The knobs at each of the Thai Hand & Foot Massage Tool's three points can be used in many ways to apply deep pressure to muscular trigger points. The smaller knob provides deeper, more intense pressure. The larger knob provides broader, gentler pressure. Use one knob at a time to press deeply into embedded trigger points.

Small Thumb Hand & Foot Massage Tool

Enhance the power of your thumbs. The Small Thumb Hand & Foot Massage Tool can be used for hand and foot massage, shiatsu, accupressure, or any other massage technique that requires pressure to be applied by the thumbs. The Small Thumb Hand & Foot Massage Tool helps your hands to do more but saves your thumb from the constant pressure.

Big Thumb Hand & Foot Massage Tool

The Big Thumb Hand & Foot Massage Tool is used as a therapeutic helper for releasing tension while strengthening hand muscles. It provides a deep tissue massage without creating pain, tiredness, or weakness in the fingers for nail technicians. Your tired or weak fingers will appreciate the help of sturdy Big Thumb Hand & Foot Massage Tool.

Hand, Foot & Body Stone Roller Massager

The innovative, gliding action of the Hand, Foot & Body Stone Roller Massager's freely rotational balls massages the muscles in the same way a professional massage therapist works to loosen and relax soft tissues and improve circulation. The Hand, Foot & Body Stone Roller Massager can be used any time to ease muscular soreness or tension caused by daily activities, work, or sports. Excellent for extended car & air travel. Use on arms, legs, hands, feet, back- anywhere there is excess tension. Very easy to use but also very effective.

Hand, Foot & Body Roller Massager

Hand, Foot & Body Roller Massager helps give a more thorough stimulation to various Hand, Foot & Body buttons in the hands and feet. It is excellent for reaching small pinpointed hand, foot & body areas. Use in one hand at a time, or position the Hand, Foot & Body Massager between both hands, placing its small, yet firm projections into a tender point, roll it with a pressing motion. It stimulates the hands and feet with minimal effort.
