

# ANS FURNITURE

IMC TABLE & VENTED SPA

A new regulation adopted by the New York State Department of State requires all businesses offering nail services to provide ventilation to capture and exhaust harmful contaminants, fumes, and particles away from clients and workers.

2015 International Mechanical Code ("2015 IMC").

## IMC Nail Bar Table

Double NAIL BAR - White & Brushed Aluminum

**\$1375**

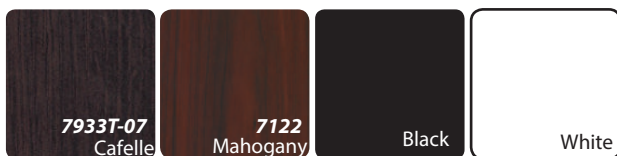

(international mechanical code)

- Connects directly to ventilation system. Specify left or right vents, and wall or floor installation.
- Satisfies requirement by some states that all nail stations must be vented to the outside
- Dimensions: 18"D x 94"L x 36"H (table surface)
- Single Nail Bar available
- Customization available - Please contact one of our experienced representatives

# IMC Vented Nail Table

International Mechanical Code

A ventilated table draws chemical vapors and particles into a duct and vents out contaminated air to the outside of the salon. This prevents toxic chemicals and particles from reaching the breathing zone of both nail workers and clients.

## IMC VENTED NAIL TABLE

(international mechanical code)

- Connects directly to ventilation system. Specify left or right vents, and wall or floor installation.
- Satisfies requirement by some states that all nail stations must be vented to the outside

# Ventilation Systems **by HealthyAir**

## HEALTHYAIR **NEW** SOURCE CAPTURE AIR PURIFIER

Complies with IMC 2015/2018 Ventilation Codes

- Patented technology, the HA-SCP-GS effectively cleans air in a highly efficient and innovative 3-stage process. As contaminated air passes through unit, the Pre-filter, eHEPA Filter, and enhanced carbon catalytic filter work together to capture microscopic air particles and kill microorganisms; including dust, smoke, allergens, viruses, bacteria, mold, and odors.
- 3 speed fan control of air flow and sound level.
- Hood of extraction arm can be strategically positioned to capture impure air.

- Voltage 120V/ 60Hz
- Power consumption - 200w
- Weight- 37lbs
- Base dimensions- 14"x12"x24"
- Flex hose length- 45"
- Airflow rate- 240cfm
- Noise level - 56dB
- 1 year limited warranty

- Options:
- Single inlet or Single inlet with outside vent
  - With or without Light
  - Colors- White, Grey or Black

## HEALTHYAIR **NEW** CEILING MOUNT SOURCE CAPTURE AIR PURIFIER

- Most powerful and innovative source capture system available and ideal system for salons with limited floor space.
  - With patented technology, effectively cleans air in a focused breathe zone in a highly efficient and innovative 3-stage process. As contaminated air passes through the unit, the Pre-Filter, eHEPA® Filter, and Enhanced Carbon Catalytic Filter work together to capture microscopic airborne particles and kill microorganisms; including dust, allergens, virus, bacteria, mold, gasses, and odors.
  - Equipped with a 3 speed fan that enables control of air flow and sound level. Recommended for salons that require a minimum of 50 cfm of air extraction per workstation, the HA-CMCS-G2-WS-R is designed to efficiently position the extraction arm in the desired location, while eliminating the footprint of a stand alone unit.
- When exhausting treated air, this system makes use of Coanda airflow to ensure that purified air is re-circulated evenly throughout the room and to offer energy savings.

- Voltage 120V/ 60Hz
- Power consumption - 200w
- Weight- 65lbs recirculating vent  
Weight- 75lbs outside vent
- Base dimensions- 24"x24"x15.4"
- Flex hose length- 45"
- Airflow rate- 550cfm
- Noise level - 56dB
- 1 year limited warranty

- Options:
- Single inlet or Single inlet with outside vent
  - With or without Light
  - Single or Dual Hose
